If you've just bought a IFFALCON 55K2A or you've had it for a long time and you don't remember how to add new applications, we'll give you the instructions to download and install any of the applications available in your TV's application store. First of all, you must bear in mind that you need to have an internet connection configured to be able to install applications on your IFFALCON 55K2A. If you don't have a wired or Wi-Fi internet connection configured, see the tutorial: Connect to the internet IFFALCON 55K2A. Estimated time: 10 minutes. You will need: - Internet connection 1- First step: To start, we access the start menu of your IFFALCON Certified Android 138.71cm (55-inch) Ultra HD (4K) LED Smart TV with Netflix (55K2A) TV, to do this press the "Home" or "Start" key on the remote control, it is the button with the drawing of a house. 2- Second step: Use the direction buttons on the IFFALCON 55K2A TV remote control to find the section called "Applications", it should be located on the right side of the screen but may vary depending on the version of the operating system. 3- Third step: You will see the applications installed on the IFFALCON 55K2A television, to download new applications you must access the Google Play Store, click on its icon to access the Google application store for Smart TV. If this is the first time you access, you must log in with a Google account. If you don't have a Google account, use your mobile phone, tablet or computer to create a new account. 4- Four step: We will access the main menu of the Google TV interface of the 55K2A, television, using the direction buttons on the remote control we will move to the Applications section of the main menu. 5- Fifth step: You can navigate using the direction buttons on the IFFALCON 55K2A remote control through featured and popular apps to find the app you need. If you can't find it, click on "Search for apps and games" to do a search and find the desired app. 6- Sixth step: Using the keyboard that appears on the IFFALCON 55K2A screen, type the name of the application you need to install. You can also use the remote control's microphone if you have one. Once you have written or dictated it, click on the "Search" button, it is the button with the icon of a magnifying glass that is located in the lower right part of the keyboard that is shown on the screen. 7- Seventh step: Select the application you are looking for and press the center button on the remote control to access the available options for that application. 8- Eighth step: Once the application that we want to install is found, in the event that we do not already have it installed, we will see an "Install" button. We use the direction buttons on the remote control to move to the "Install" button and press the central button on the remote control to start the download and installation of the application on our IFFALCON 55K2A. 9- Ninth step: We wait a moment for the download and installation of the application to complete, this time will depend on the size of the application (they are not usually very large) and the connection speed we have. Once it has been completed, we can start the application on our IFFALCON 55K2A by clicking on "Open" or continue searching and installing applications through the application store. Each installed application will be added to the home menu of the TV, you can access them by pressing the "Home" button on the remote control. 5 Things to consider while buying a washing machine We love the clothes we wear and therefore, we use the best washing machine to wash them and keep them soft, cozy and like new all the time. Purchased on Dussera festival and using it since last 3 weeks. My rating 4.5/5....Picture Quality: Excellent for 4K and HD videos. Not at all great for SD channels. You have to have HD set top box to enjoy picture quality. Other than SET TOP box, Netflix, Hotstar, YouTube(1080p and above resolutions) looks awesome on this TV.Cons: There is automatic upgrade of picture quality for SD channels or Any online videos less than 720p....I feel that VU is ...READ MOREVijay PhalkeCertified Buyer, PuneNov, 20185ExcellentGood service by Flipkart.Delivery on time.now come to facts about tv.pros: 1) build design is good and finish2) Android tv with playstore3)Sound quality is good 4)auto brightness5)Smart remote included which supports air mouse good feature6)you can play high end game like asphalt 8cons:1) less than 1080p video will not be justified by tv as the video seems blurry but 4k videos are awsum to watch2) sometimes air mouse hangs and scrolling is not dat great.3) You will not found all...READ MOREAVINAV KUMAR SINGHCertified Buyer, NoidaMay, 20185Super!! I have bought this TV during independence Day flash sales, after repeated failed attempts in the past. It has been two weeks since I am using this product and will share my experiences so that you can have better idea about the product before any investment. The TV set was delivered on time but it took 1 week time to get it installed by the technician, hence my first hand experience was very bad with the flipkart technicians. Feeling lucky to have miss the MI TV flash sales. Coming to the TVPROSTV looks stunning in Silver Metal finish.4K & HDR content is amazing to watch. 720p and 1080p is good if viewed from certain distance (~10ft), kindly avoid SD content.Viewing angles are great (VA panel). Backlight dimming and Black levels are superb, considering the price.4K in YouTube (Slight here and there framedrops in 2160p 60fps quality) and HDR in Netflix is a delight to watch.HDRI...READ MOREAjish M DasCertified Buyer, TrivandrumJun, 20185Brilliant!! works good. fully android tv. user interface is good. i purchased MI TV 4 on first sale in feb and now i purchased IFFALCON TV. campared to both we can say MI TV 4 is not at all android it runs on patchwall os , before purchasing i imagined lot about mi tv 4, but after my 4 months experience mi tv is not good for people who want to be tech edicted. when we came to IFFALCON its completely android certified. can install directly apps from good play store and no need to use third party instal...READ MORESATYA NARAYANACertified Buyer, HyderabadJun, 20185A Falcon that soars high!! should probably tell you that I am also one of those disgruntled members of the mi tv4 club. Its samsung panel was very tempting, though i later realized (thankfully) that it was bottom lit with no local dimming. The obvious other choice was Vu. It had full array backlight and its contrast and colors were well reviewed. Then came this beast, with its perfect spec sheet of android, air mouse and micro-dimming. Immediately, missing out on the mi seemed a blessing in disguise.
